

Faizan Ali

Senior Frontend Engineer & UI/UX Developer

Lahore, 54000, Pakistan

faizan.ali765431@gmail.com | <https://github.com/faizankhan63>

PROFESSIONAL SUMMARY

Frontend Engineer with 6+ years of experience building modern, scalable, and responsive web applications using React.js, Next.js, TypeScript, and JavaScript (ES6+). Experienced in developing reusable UI components, integrating RESTful APIs, and optimizing application performance for speed and accessibility. Strong understanding of responsive design, state management, and clean architecture with a focus on maintainable code. Passionate about creating intuitive user experiences while collaborating with cross-functional teams in Agile environments. Proficient with Git, code reviews, testing, and continuously learning emerging frontend technologies.

SKILLS

- **Frontend & Frameworks:** React.js, Next.js, Redux / Redux Toolkit, TypeScript, JavaScript (ES6+), [Angular.js](#), [Electron.js](#), React Hooks, Context API, React Query/TanStack Query, Server-Side Rendering (SSR), Static Site Generation (SSG)
- **Web & UI/UX Development:** HTML5 & CSS3, Responsive Web Design, CSS-in-JS (Styled Components, Emotion), UI/UX Implementation, Performance Optimization, SEO Best Practice, Cross-Browser Compatibility, Accessibility (a11y)
- **APIs & Data:** RESTful APIs, JSON & AJAX, API Integration & Consumption
- **Development Practices & Tools:** Git / GitHub / Version Control, Unit Testing (Jest, Enzyme), Code Review & Debugging, CI/CD, Agile / Scrum Methodology, CI/CD Pipelines, ESLint, Prettier, npm, Yarn, Vite, Webpack, Chrome DevTools, Postman
- **Soft Skills & Collaboration:** Team Collaboration, Client Engagement, Problem Solving, Mentorship / Knowledge Sharing, Project Planning & Ownership

EDUCATION & EXTRA - CURRICULARS

[Bachelor in Computer Science](#) | *University of Management And Technology*

[Member, University Club](#)

PROFESSIONAL EXPERIENCE

Senior Web Developer | June 2025 - Present

- Leading and managing end-to-end frontend development across the application.
- Architecting and developing scalable, high-performance web interfaces using React.js, Next.js, and TypeScript.
- Owning the complete frontend codebase, including UI architecture, state management, and performance optimization.
- Collaborating with product managers, designers, and backend engineers to translate requirements into clean, functional UI.
- Implementing modern UX/UI patterns to improve usability and user engagement.
- Integrating and consuming RESTful APIs, ensuring seamless data flow between frontend and backend systems.
- Applying SEO best practices and page performance optimizations for better search visibility.
- Writing clean, maintainable, and reusable code, following industry standards.
- Conducting code reviews, enforcing best practices, and improving overall code quality.
- Debugging complex frontend issues and ensuring cross-browser and cross-device compatibility.
- Introducing new frontend tools, libraries, and best practices to improve development efficiency.
- Supporting production releases and handling frontend-related issues post-deployment.

Senior Web Developer | Jun 2022 - Mar 2025

- Developed and maintained dynamic, responsive web applications using React.js and Next.js.
- Built reusable, modular components, improving development speed and long-term maintainability.
- Implemented Redux to manage complex application state across large-scale applications.
- Integrated RESTful APIs to enable real-time data synchronization with backend services.
- Collaborated closely with UX/UI designers to deliver visually polished and user-friendly interfaces.
- Defined API contracts and coordinated with backend engineers for seamless integration.
- Wrote clean, efficient, and well-documented code, following industry best practices.
- Implemented unit testing using Jest and Enzyme to ensure code reliability.
- Optimized application performance by identifying and fixing rendering and network bottlenecks.
- Used Git for version control, managing branching, merging, and resolving conflicts.

Web Developer Intern | Aug 2021 - Nov 2021

- Dedicated time to personal growth, attending regular training sessions to broaden web development capabilities.
- Communicated clearly with web development teams, ascertaining daily tasks and completing them according to exact directions.
- Designed and developed blog post sites using HTML.
- Created responsive design layouts using JavaScript and jQuery, enhancing smooth customer experiences.
- Applied SEO best practices in web development projects, improving website visibility in search engine results.
- Participated in agile development cycles, adapting quickly to changes and meeting tight deadlines. Utilized HTML, CSS, and JavaScript to develop responsive web pages, improving site accessibility across devices.
- Contributed to the development of an internal web application, streamlining workflows and increasing team productivity.
- Utilized JavaScript, HTML, and CSS to create interactive and visually appealing web pages.
